日月領航
夢想發光

製程/研發工程師

研發、製程改善
大學以上, 理工相關系所畢

品質工程師

程式開發、系統規劃/建置/維護管理
大學以上, 資工、管理相關系所畢

設備工程師

設備機台維修/保養
大學以上, 電子、電機、機械相關系所畢

IE工程師

人力、機台分配/調度/移轉機制設計、
產線設計與規劃
大學以上, 工工、工管相關系所畢

營運幹部

人員、品質、生產及成本管理
大學以上, 工工、工管相關系所畢

Technical Engineering - Process/R&D Engineer 【Kaohsiung】

work content

Process engineer

1. Process planning and process yield improvement issues
2. Improve product process capabilities
3. Improve materials and develop new materials

R&D engineer

1. New process development/new equipment, material evaluation introduction
2. Process yield improvement/Cost Down project/Quality problem handling, etc.
3. New product failure analysis process establishment

Job category

1. Production Technology/Process Engineer
2. Chemical Chemical Engineer
3. Material R&D Personnel

Work Salary

Monthly salary of more than 35,000

Nature of the work

full time

work place

No. 26, Jingsan Road, Nanzi District, Kaohsiung City (Nanzi Science and Technology Park) (320 meters from MRT Nanzi Processing Zone Station)

management responsibility

No management responsibility

business trip

No need to travel abroad

working hours

day shift, null

Holiday System

According to company regulations

Available days

within a month

Number of people in need

unlimited

Condition requirements

work experience

casual

Academic requirements

University or above

Department Requirements

Chemical engineering related, material engineering related, electrical and electronic engineering related

language condition

[English](#) -- Listening/Medium, Speaking/Medium, Reading/Medium, Writing/Medium

Technical Engineering - Equipment Engineer 【Kaohsiung】

work content

1. Regular maintenance and maintenance of production equipment machines
 2. Troubleshooting and abnormal inspection and repair of production machines
 3. Equipment problem improvement and abnormal analysis and tracking processing
 4. Maintaining the normal operation of production machines and equipment
- ※ No experience required (complete on-the-job training) overtime and bonus

Job category

1. Production equipment engineer
2. Semiconductor equipment engineer
3. Electronic Equipment Renovator

Work Salary

Monthly salary 34,000~50,000 yuan

Nature of the work

full time

work place

No. 26, Jingsan Road, Nanzi District, Kaohsiung City (Nanzi Science and Technology Park) (260 meters from MRT Nanzi Processing Zone Station)

management responsibility

No management responsibility

business trip

No need to travel abroad

working hours

Day shift/Night shift, day shift: 07:30~19:35, shifts required

Holiday System

According to company regulations

Available days

unlimited

Number of people in need

unlimited

Condition requirements

work experience

casual

Academic requirements

College, University, Master

Department Requirements

Industrial skills and mechanical disciplines, engineering disciplines, mathematics and computer science disciplines

language condition

[English](#) -- listening/slightly understanding, speaking/slightly understanding, reading/slightly understanding, writing/slightly understanding

other conditions

- * We welcome those who have more than one year's work experience in packaging and testing to join ASE. No experience is required.*
- * We welcome the freshmen of relevant departments to submit resumes. Morning and evening shifts once a month

Technical Engineering - Test Application Engineer 【Kaohsiung】

work content

1. Mechanism/electronic circuit/optical system design 2. Mechanism/electronic circuit/optical system simulation analysis 3. Fixture mechanism/electronic circuit/optical system research 4. Component purchase inspection specification formulation

Job category

1. Optoelectronic Engineer
2. Optical Engineer

Work Salary

Monthly salary of more than 35,000

full time

work place

No. 26, Jingsan Road, Nanzi District, Kaohsiung City (Nanzi Science and Technology Park) (260 meters from MRT Nanzi Processing Zone Station)

management responsibility

No management responsibility

business trip

No need to travel abroad

working hours

day shift

Holiday System

According to company regulations

Available days

unlimited

Number of people in need

5~7 people

Condition requirements

work experience

casual

Academic requirements

University, Master

Department Requirements

Electrical and electronic engineering related, optoelectronic engineering related

language condition

[English](#) -- Listening/Medium, Speaking/Medium, Reading/Medium, Writing/Medium

Technical Engineering - CIM Automation Engineer - Machine Vision 【Kaohsiung】

work content

1. Machine vision algorithm and vision system integration application development 2. Project execution development and actual writing of software architecture 3.

Job category

software design engineer

Work Salary

Monthly salary 32,000~60,000

full time

work place

No. 26, Jingsan Road, Nanzi District, Kaohsiung City (Nanzi Science and Technology Park) (190 meters from MRT Nanzi Processing Zone Station)

management responsibility

No management responsibility

business trip

No need to travel abroad

working hours

day shift

Holiday System

weekends off

Available days

within a month

Number of people in need

1~4 people

Condition requirements

Academic requirements

University, Master

Department Requirements

Information engineering related, electrical and electronic engineering related, information management related

language condition

English -- Listening/Medium, Speaking/Medium, Reading/Medium, Writing/Medium

Taiwanese -- medium

tools

C#,Python

working ability

software programming,structured programming,Modular system design,Design machine equipment automation

other conditions

Familiarity with the following packages is preferred:

1. Cognex / Halcon / OpenCV / National Instruments related machine vision packages
2. TensorFlow / Azure / Vidi / Cafffe / Keras related machine learning packages
3. Visual Studio C#
